

# Installation of the Neugart Calculation Program

Version 3.3

Date: October 07, 2016

## 1. System requirements

### Software

- Microsoft Windows XP oder höher
- Microsoft .NET Framework 4.0

### Hardware

- Processor: 1 GHz
- Main memory: 512 MB
- Graphics board: 1280x800 resolution
- Hard disc capacity: 180 MB

## 2. Download the NCP software

To be able to download the NCP software, you must agree to the licence agreement. Once you have agreed to the licence agreement, the NCP can be downloaded by clicking on "Start download".

## 3. Installing the NCP software

To be able to install functional NCP software, the Microsoft system environment ".NET Framework 4.0" must be installed. This is required to carry out the installation and allow the NCP software to be used. If .NET has already been installed, NCP will be installed correctly. In the event that .NET has not been installed, a Windows error message will appear.

The software .NET is installed as standard on the Vista version and higher of Windows and is also available free-of-charge from the Neugart homepage. The preferred language version can also be selected.

Note: The NCP installed is a portable installation, which means no entries can be made in the registry. The NCP can therefore be removed without a trace by simply deleting it.

## 4. Activating the NCP Software

Once you have installed the complete NCP software, you will be prompted to fill out the licence application when you launch the software for the first time.

There are three different ways to obtain the activation key for your version of NCP:

- 1. Automatic File Upload:** Your licence application will be sent to the web browser automatically. You will receive an activation code within 10 minutes. Should your firewall prevent this, there are two other options available to obtain the software.
- 2. File-Upload:** You will be automatically forwarded to a web browser when files are uploaded. This allows you to specify the storage location for the licence application created. You will receive the activation code within 10 minutes.
- 3. Email:** Please send the licence application you created to "ncp@neugart.com". You will receive the activation code within 72 hours.

The license issued is valid for one year.

Note: Your personal data is only used for registering with Neugart GmbH.

If there are any issues with the installation feel free to contact us: [ncp@neugart.com](mailto:ncp@neugart.com).
